

BSF70 FOLDING DOOR SYSTEM

Versatile and flexible, the market leading BSF70 aluminium folding door system is available in a wide range of configurations to create the look you desire. Multiple doors can be combined with open-in or open-out options, in a variety of styles to create a wide expanse of opening. The narrow profile ensures that maximum glazing is achieved, flooding rooms with light.

DESIGN FEATURES

- Internally beaded with a soffline or square detail to all external doors and panels
- Chamfered and square bead options
- Four stainless steel wheels ensures smooth and consistent operation
- Unique, flush line pop-out handle that allows maximum door opening and square stacking panels
- Low threshold option which can be configured to achieve DDA and Part M compliance
- Certified under Secured by Design scheme

OPTIONS

- Doors and panels can be used in a variety of configurations, style and design
- All configurations are available in both open-in and open-out options
- Full range of bespoke hardware available
- Glazing sizing range of 28mm – 44mm
- Available in single or dual colour option, polyester powder coating and anodised finishes

CONFIGURATIONS

The BSF70 folding door system is available in a wide range of configurations as demonstrated below. Panels can be stacked inside or outside, to the left or right, or split stacked on both sides.

BSF70 FOLDING DOOR SYSTEM TECHNICAL SPECIFICATIONS

Combining high security hinges and locking mechanisms with a unique high strength roller designs, the BSF70 aluminium folding door system provides the security and reliability demanded in high traffic applications. Doors can be manufactured to replace

whole walls and a full range of colours are available, including single or dual aspect. Anodised finishes are also available with marine grade guarantees on request.
